

We are proud to have Certified Master Inspectors® on our staff to serve you.

5 Star Reviewed Company - What Our Customers Say:

Professional, courteous, and on time. Offered suggestions and recommendations for the future and with items found to be out of compliance. Would recommend to friends and family. Provided a comprehensive report that I would recommend others file away if you decide to go with this company. Very good detailed information provided in the report.

I've had multiple great experiences with TPIP. Easy to talk to, patient and detailed with questions, and use the updated HomeGauge system, which makes really pleasing reports to share with my clients. I am selling a property to my significant other and this was easily the team I suggested he use for his purchase - he was very pleased. PS. They offer a military discount!
